

## FREED'S IMPROVISED BROWN'S SANITY

Nearly Twenty Witnesses Examined to Prove Young Man Demented.

### HEARING CONTINUES TODAY

THREE WITNESSES COMBAT THEORY OF DEFENSE.

Nearly a score of witnesses were examined yesterday before District Judge George J. Armstrong, in the case of the state against Arthur Brown, charged with insanity, in an effort to prove that the young man, who is awaiting sentence on conviction of forgery, was demented at the time he committed the crime with which he was charged.

The case was not closed at yesterday's session of the court, and, while three witnesses were examined yesterday by the state to show that he was possessed of his mental faculties, others will be called today. Among these will be a number of alienists according to District Attorney Fred C. Loofbourough.

The witnesses examined yesterday to show that Brown was mentally unbalanced were Fanny Brown, a sister; H. M. Cushing, Mrs. Cushing, Harvey J. Jones, Police Captain J. B. Burbridge, Albert Crabbe, Judge J. D. Purdie, R. McKenzie, William Igleheart, W. B. Andrew, Major H. P. Myron, Mrs. Vetter, William H. Brown, a brother, G. H. Place, William Brown, father of the prisoner; O. W. Powers, Howard A. King, clerk of the court; William Hansen and Judge Whitaker, who was asked to take the stand by Judge O. W. Powers, conducting the case for the defendant.

The witnesses examined for the state were Harry L. Finch, Isaac Spracy and Fred W. Sinclair.

The members of the jury who are listening to the evidence are William Quick, William J. Horne, William C. Orgill, Henry Arnold, Lewis H. Cannon, Charles H. Baxter, Joseph M. Smith and John M. Deitz.

Brown, who was at one time paying tithing in a local bank, was afterward a clerk in the office of a local firm of mining operators. He was charged with having forged a number of checks, from which, however, he derived no benefit, and the firm lost no money.

## PROJECTS ARE DISCLOSED

Applications to Appropriate Water Filed With State Engineer.

W. J. Robinson, 3 Washington avenue, Salt Lake City, filed with the state engineer Wednesday application to appropriate water from Chicken creek, a tributary of Sevier river, in Juab county. The water is to be diverted from the creek and propelling purposes. Power is to be used at a plaster mill now being constructed at the mouth of Chicken creek canyon, and for a local firm of mining operators. There will be a dam and pipe line, a flow of ten cubic feet of water per second and a diverting channel 2,400 feet in length.

Application was also filed by Walter G. English, Elgin, Grand county, for 1,500 extra feet of water, to be diverted from Horace Canyon fork of Green river, in Grand county, and to be used for irrigation purposes from March to November inclusive.

The diverting works are to consist of a masonry dam fifteen feet high and 100 feet long, a channel 3,000 feet in length, with a headgate, ditches and flumes, and two reservoirs, in Horace canyon.

## PNEUMONIA IS FATAL.

Twenty-five Deaths Out of Sixty Cases in Utah.

The Utah state board of health bulletin for November, issued Wednesday, shows the death rate for the entire state to be 30 from all causes. In Salt Lake county alone there were 110 deaths recorded.

Throughout the state there were twenty-five deaths out of sixty cases of pneumonia, ten deaths out of fourteen cases of tuberculosis, eight deaths out of 129 cases of typhoid fever, seven deaths out of fifty-six cases of diphtheria and one death out of thirty-eight cases of scarlet fever.

## MUSICIANS INTERESTED.

MacDowell Concert Is Assured of Substantial Patronage.

The concert to be given tonight for the MacDowell fund, at the First Congregational church, is assured of substantial patronage. The movement has been taken up by all the leading musicians of the city, and seven of the fraternity will take part in the program. They are Arthur Shepherd, Emma Lucy Gates, M. J. Brines, J. H. McClellan, Mrs. Graham F. Putnam, Hugh Douglass and Miss Agatha Berkholz. The advance sale of tickets has been quite satisfactory.

## A BANK BOOK FOR CHRISTMAS

A bank account presented as a Christmas gift will teach your children the importance of saving. It will, moreover, make them feel a pride and pleasure in adding to the original deposit from time to time, thereby early providing for their future independence.

If desired, we will place the pass book in a special Holiday envelope that will add to the attractiveness of the gift. We especially solicit small accounts. One dollar will do to begin with.

## APARTMENT HOUSE PROPERTY SOLD

Davis & Levitt the Purchasers—Plans Announced for a \$55,000 Flat Building.

### WILL START WORK SOON

TERRACE BUILDING, WITH SITE, BRINGS \$53,500.

Another important transaction in Salt Lake business property, was closed yesterday when Ben Davis and J. Levitt, of this city, announced the purchase of the seven-apartment terrace building and property at the southeast corner of Third South and Second East streets, for \$53,500. The property was purchased from the Irving investment company of Salt Lake through the agency of A. Richter. Title to the property has passed into the hands of the new owners and consideration has been paid in full. The terrace is practically new and is valued in the neighborhood of \$55,000. Following the purchase of this property, Messrs. Davis and Levitt last night announced that they have completed plans for a modern three-story twelve-apartment flat building on O street, between Brigham and First South streets, to cost \$55,000. This brings yesterday's really and building operations here to a total of over \$100,000.

The Davis-Levitt flat structure will be erected on the site of the old house on the Knott property on O street, said to be a very desirable site for such a building. Work is to start on the structure early next spring and it will be ready for tenancy during the late summer.

## OLD FARMER IS ARRESTED

Octogenarian Is Accused of Obtaining Money Under False Pretenses.

John McKnight, almost eighty years old, has the unique and unenviable record of being the oldest man ever arrested in Salt Lake on a larceny charge. He was picked up last night by Officer Schultz, on the complaint of the proprietor of the Union bar at 66 East First street, who charges that McKnight passed a fraudulent check at his saloon. The check was for \$5 and was made payable to Sam Piccolo and signed by McKnight. It was cashed at the saloon on July 9, according to the proprietor's story, and the old man drew a check on the bank for the amount. McKnight was arrested at his home, but was afterwards returned from McCormick's bank, on which it was drawn, to Salt Lake and taken to the police station.

In the meantime the old man disappeared. Yesterday afternoon he was found in the saloon man saw the old man on the street and at once pounced upon him. He made no attempt to escape and was taken to the police station. He was locked up under a charge of obtaining money under false pretenses.

## PLANS FOR A BUILDING

Discussed by the Board of Governors of the Commercial Club.

In all probability Samuel Newhouse will be unable to be the guest of honor at the Commercial club's annual banquet, Friday evening, Dec. 28. Mr. Newhouse stated last night that he would leave for New York immediately and probably not return until the middle of January.

At the regular meeting of the board of governors of the club yesterday afternoon the plans proposed by Mr. Newhouse for a new club building were informally discussed. The club members are enthusiastic over the prospects of securing a new structure, and have placed all details of its preliminary arrangements in the hands of a special committee. This committee, it is understood, has held several very satisfactory conferences with Mr. Newhouse.

The following were elected to resident membership in the club yesterday: Addison Cahn, F. A. Wann, general traffic manager of the Salt Lake Route; George Mullett, E. L. Linsdstein, A. C. Ellis, Jr., and William H. Dickson.

## SANDY GETS NEW BANK

Business Men Decide That Such an Institution Is Required.

A meeting of business men was held at Sandy Tuesday night at which plans were perfected for the organization of a new bank, under the laws of the state, to care for the banking business of that town and the tributary country.

At the time the merchants and others of Sandy who have banking business to transact must perform it at Murray, Brigham Junction or in Salt Lake. Those in the town who have much business of this kind do have suffered for a long time from the inconveniences of having no banking facilities, and have decided to make their town a little more up-to-date. They assert that the growing business of the town demands such an institution.

The new bank will be named the Sandy City bank and will be capitalized at \$100,000. The stock is held at \$10 per share. Dr. A. G. Robinson will be named as president, and County Commissioner W. V. Walker as vice president. The directors will be Heber A. Smith, C. C. Crapo, W. C. Burgen, J. W. W. Fitzgerald and L. E. Despain.

Persons who are interested in the matter are Robert Yagasson, H. N. Bjork, P. A. Nelson, A. Nelson, Anton Lindberg, W. D. Kubre, John Betts, James, J. C. Vincent, Lars Monson and others. C. C. Crapo has donated a fine building site on the corner opposite the postoffice, upon which a building will be erected at once. The building will be provided with a burglar-proof and fireproof vault and safety deposit boxes.

## FIRST M. E. CHURCH OF SALT LAKE CITY OWES MUCH TO EFFORTS OF BISHOP McCABE

Bishop Charles C. McCabe of the Methodist church, who died in New York Tuesday evening, is well known here, having been to a great degree instrumental in the upbuilding of the First Methodist church of Salt Lake.

Bishop McCabe first became interested in Utah in 1871, when he was secretary of the board of church extension of the Methodist church. He came here at that time and organized the First Methodist church, which was formerly located on Third South street. During last year he kept up his interest in the work here and fifteen years ago, when the church was struggling with a \$20,000 debt, paid it out of his own pocket, taking the note of the congregation for the amount. He also arranged so that the Women's Aid society of the church could carry a loan of \$5,000 for many years.

When the new church was completed a year ago it was decided to call it the McCabe memorial church, but the bishop objected, saying that he did not want any

## CANINE IS EXECUTED.

Vicious Dog Attacks Pedestrians and Is Shot by Policemen.

A vicious dog was officially executed yesterday afternoon at the rear of the police station by Patrolmen Heath and Harris. The dog belonged to Mrs. Louisa Spies, who drove in from South Boulton yesterday. The dog followed her to Salt Lake and several people passing on the street.

The only person seriously bitten was C. J. Bloomquist, a carpenter living at 34 North Second West street. The dog attacked him on Main and Second South streets and sank its fangs deep into the calf of the man's leg. He tore himself free from the dog and went to the police station.

While there protesting against the unwarranted attack on him, the woman and the canine appeared. She said that the dog became vicious at times and she wished that he be shot. Patrolman Harris lassoed the animal and tied him to the side of the patrol wagon, and Officer Heath, of the department, ended the blood-thirsty career of the dog by a well-aimed bullet.

## TWO WANT DIVORCES.

Unhappy Wives Ask Court to Set Them Free.

Laura D. Griffin filed suit in the district court yesterday, asking for a divorce from John B. Griffin. They were married here June 28, 1904, and had a daughter, Leola. The wife alleges that her husband deserted and abandoned her the day following their marriage. She asks that the court set aside the marriage, and that her maiden name, Laura D. Steiner, be restored to her by the court.

Esther Revell filed suit against Joseph Revell, asking for an absolute divorce and the custody of one child, a boy. She alleges that he deserted her in 1902 in this city and that he deserted her Feb. 9, 1905.

## COAL MINES SHOW BIG GAINS

Annual Report of State Examiner Recites Causes of the Present Coal Famine.

### WANTS MINERS PROTECTED

HYDROCARBON MINES USE EXPLOSIVES CARELESSLY.

In his annual report, submitted to Governor Cutler yesterday, Gomer Thomas, state coal mine inspector, gives four reasons for the present shortage of coal—the tremendous growth of the country supplied with coal by the Utah mines; the extensive construction work now going on, which has drawn on the supply of labor so as to increase the supply formerly available to work the mines; the great increase in newly opened metal mining fields in the west and southwest, which has increased the demand for Utah coal over 200 per cent, and the increase of over 100 per cent in demand caused by the war in Europe.

The report covers twelve months, up to Nov. 20, 1906. In an endeavor to cope with this increase in demand, the mines have increased their output over last year from 39 to 53 per cent. Mention is made in the report of the inability of the mines to get sufficient cars to handle the output.

"The production of coal for the year was 1,538,219 short tons, an increase over the preceding year of 236,691 short tons. The production of coke was 22,165 short tons, an increase over the preceding year of 66,183 short tons. There was also produced during the year 1,814,585 pounds of dynamite, valued at \$402,585. The number of employees in and around coal mines was 1,886, and the average number of days worked was 235. The amount of high explosive was: Black powder, 176,414 pounds; dynamite, 54,045 pounds.

The average amount of coal produced per man in and around coal mines was 1,161 short tons, and the number of accounts for every thousand tons of coal produced was 2.5. The number of tons mined for every life lost was 612,073.

There were twenty-eight accidents in the Utah coal and hydrocarbon mines in 1906, of which seven were fatal. As a result, two wives were made widows and three of the fathers of twenty-four men killed were employed in the coal mines and four in the hydrocarbon mines. In Salt Lake City 26,533 tons of coal sold during the year. Reports of the deputy coal mine inspectors show that the mines throughout the state are in good condition.

### The Thomas Report.

The report is in part as follows:

"The year 1906 was a most extraordinary one in the industrial life of the United States. In all branches of trade there was a quickening impulse of prosperity and the great coal-producing states of the west were alive with an activity never before equalled.

"It is little wonder that the mere suggestion of a coal famine in Utah is enough to cause alarm and anxiety among the manufacturing and transporting interests. Utah has had a small coal mine, which has caused a delay in our metal mines, furnaces and smelters, and many of our householders have had to suffer.

"Our mines are producing all the coal that our miners can dig and this coal is being shipped direct to market. The output at present is something like 200 cars per day.

"In my report of 1905 I suggested to the honorable legislature of Utah, which meets in January, 1907, that they make an investigation into the coal and hydrocarbon mining laws of the state of Utah as follows:

"That it shall be unlawful for any miner or any employee in the coal and hydrocarbon mines of the state to use or set off any high explosives for the mining of coal or taking down of rock during the working hours, as all shots must be fired after the men are out of the mine, except those that will be needed to fire the same.

Mines in Good Condition.

"My reason for the above suggestion is that the men employed in the mines are allowed to use explosives which are not safe in the mines to become vitiated by the unnecessary use of powder for the blasting of coal, as in some of the large mines they are shooting and using powder throughout the day.

"The conditions of the mines in the state of Utah are not so favorable as those of any other state in the Union. Having been in position to know the condition of the coal mines in the state for the past ten years, I feel safe in saying that at no previous time have the general conditions been as good as they are now, with respect to ventilation, drainage and general safety.

"I am sorry to say that conditions in our hydrocarbon mines are not so favorable. I am in doubt as to whether it is safe to use electric light in the mines, and I am in doubt as to whether it is safe to use electric light in the mines, and I am in doubt as to whether it is safe to use electric light in the mines.

"A great deal of thought has been given to the enactment of legislation that would tend to safeguard the hydrocarbon industry of Utah is so vast that it has overshadowed a great many other kindred industries and the result has been allowed to develop with no restraint and guidance. These interests are now great enough to demand attention.

Timber Smashes Glass in Walker Bros.' Big Store.

The contractor in charge of the remodeling of the Mercantile block, at Main and Third South streets, occupied by Walker Brothers' dry goods store, may have a large bill to pay for smashed plate glass windows as the result of an accident which occurred yesterday afternoon. In the work of remodeling it was necessary to hoist a long and heavy timber from the street to the roof. The ends of the timber swung free, and as they were raised they swayed back and forth, striking the windows, smashing them to bits. The damage will be at least \$300.
